Hurley to Drive Rivet in First Vessel December 17.

Washington, Dec. 10.—Virtual completion of one of the Government's three great fabricating steel merchant ship plants in seventy-six days was reported to-day to the Shipping Board. The yard constructed at Newark bay by the Submarine Boat Corporation will lay the keels of three ships before the first of the year.

Chairman Hurley of the board accepted an invitation to drive the first rivet December 17 in the first ship ladd down. The rapidity of construction has assonished Shipping Board officials. The yard is 99 per cent, completed, has put down five ways and is ready to lay five more.

Ships are expected to come from the yard in June and it is planned to complete more than fifty before the end of 1918. The concern has contracted for 159, with a total tonnage of 750,000.
